Sequence 1, Application US/08722626B

Patent NO. 5939601

GENERAL INFORMATION:
APPLICANT: Klessig, Vinong
APPLICANT: Klessig, Daniel, F.
TITLE OF INVENTION: NOVEL GENES ASSOCIATED WITH ENHANCED TITLE OF INVENTION: DISEASE RESISTANCE IN PLANTS
NUMBER OF ENQUENCES: 9

CORRESPONDENCE ADDRESS: ADDRESSE: Dann, Dorfman, Herrell and Skillman
ADDRESSE: Dann, Dorfman, Herrell and Skillman
                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              Query Match
